### **DIAMOND TITLE COMPANY**

Diamond Title Company of Northeast Ohio, Inc. was founded by Amy Edwards-DeGennaro on November 15, 2005. Diamond Title is a full service title company that handles, with world class service, escrow closings, title searches, title insurance, and 1031 tax exchanges, and assists in all facets of the real estate industry.

As President of Diamond Title Company, Amy has been working with Habitat for Humanity for more than seven years to provide business services necessary in the home building industry including title searches, negotiating preparation of legal documents for deeds, closing mortgages with partner families, recording the mortgages and deeds, and general counsel services necessary from a title company. Not only has she performed these business services but she also has spearheaded a major fundraiser for the affiliate for the last two years.

Amy created the Habitat Bowl-a-Thon which in two years has raised over \$15,000 to help Habitat for Humanity. Amy has provided her contacts through the real estate and title business to get teams involved in bowling and involve sponsors to support the event. Additionally, she has leveraged her media friendships and personal relationships to generate increased support for the Bowl-A-Thon event and Habitat for Humanity's mission. She provides her business services pro bono or at reduced rates and has been helpful in getting the support of Home Builders Association and the Akron Area Board of Realtors through her membership in both professional organizations.

Amy gives selflessly of her time, talents, and treasures to Habitat for Humanity and this is one way in which we can salute Diamond Title Company for its commitment to our mission.
