THE CASE FOR YOUR ORGANIZATION TO SUPPORT AFP MEMBERSHIP

Advertise your organization's reputation for integrity

Your organization and your employees' affiliation with AFP signals to volunteers, staff, donors and the general public that your organization adheres to the highest professional standards and builds trust in the work you do as an organization. AFP members annually reaffirm their commitment and adherence to both the AFP Code of Ethical Principles and Standards of Professional Practice and A Donor Bill of Rights, which every member promotes as part of their membership commitment. In addition, AFP members have a professional team of experts on ethics at their command at all times.

Advance your organization's mission

Education and training bring you and your staff the latest in fundraising innovations, keep you apprised of trends in the philanthropic sector, and will help you to adjust your operations to use resources in the most efficient and productive manner possible. Membership in AFP will help your development team to effectively integrate the fundraising process throughout your organization and engage both staff and board members in the process of raising funds to advance your mission. Connections made at both the local and international level help raise the visibility of your organization by communicating your mission to the nonprofit community.

Succeed in an increasingly competitive environment

Put the collective knowledge and experience of the world's largest association of fundraising professionals to work for you and your organization. Whether you are looking for statistics on giving, revising your gift acceptance policy, or wish to revise job descriptions for development staff, the AFP Resource Center is available to members at no charge.

Invest in your professional staff with cutting-edge training and education

Retaining valuable staff members by investing in their professional development will pay big dividends! Staff members build confidence in their skills and make valuable contacts with other professionals...in turn; your support for their professional efforts will build loyalty to the organization and enhance performance.

Recruit from an international database of development professionals

When recruiting for new development staff, use the Online Job Service hosted on AFP's website to gain instant access to fundraising professionals around the world and in your local community. By hiring an AFP member, you are assured that they are adhering to the AFP Code of Ethical Principles and Standards of Professional Practice and promoting A Donor Bill of Rights.

Partner with other nonprofit executives to advocate for the nonprofit sector

AFP represents the profession in matters relating to fundraising, tax incentives for giving, privacy issues and other charitable initiatives. AFP not only keeps you advised about pending regulations and legislation but acts on the profession's behalf when advising and lobbying legislators on behalf of fundraisers in all areas of the profession--from healthcare and education, to the arts and social benefit agencies.

Advance philanthropy through public outreach

A priority of the AFP strategic plan is to strengthen the profession through public outreach to increase understanding of the positive economic impact of the sector and fundraising profession, as well as to increase public trust in fundraising. Events such as National Philanthropy Day®, a community-wide celebration of philanthropy, enable your organization to show appreciation to your donors and volunteers in a public forum. Add your organization's voice to this important initiative.
